

Algonquin Middle School:

Photography Club: Additional cameras and printing supplies will be purchased so that students have a project to take with them at the end of the program.

History Club: Entrance fee for the Algonquin History Club to compete in the Chicago History Fair.

Sew What's Cooking: An after school activity where students learn to cook, sew, and be creative while making friends and socializing.

Minute To Win It: An eight grade end-of-the year event with fun activities as a way to celebrate promotion.

Summer Reading Program: Students and staff will participate in reading and writing activities that involve titles from the Caudill selections.

Community Service Learning Project: Seventh grade students will participate in a day of service. There are several projects students can participate in based on their interests and how they wish to give back to the community.

#1 Pi Day: Students will hold a school wide day of activities centered on the number 3.14, also known as Pi.

Iroquois Community School:

A Guitar For All: The music department will purchase 6 guitars.

Yoga For Life: A certified yoga instructor will spend the day teaching students about yoga, benefits, and how to live a healthy life:

Flexible Seating In First: Hokki stools will be purchased for use in first grade, allowing student movement and improved focus.

Differentiated Support For Movement: All Kindergarteners will benefit from the use of Hokki stools. These stools allow students to learn in a less restrictive environment and students can move while learning.

Central Elementary School:

Enhancing Engagement in Small Groups: Third grade students will benefit from a Pen Pack Math Program.

Cumberland Elementary School:

LMC Maker Space Materials: Students will learn about circuits and build simple machines within curriculum guidelines.

Social Emotional Growth: Students in the special needs Kindergarten will benefit from materials purchased to promote social - emotional growth.

Figurenotes Musical Support: Special needs students will be able to engage and learn more in their music class with the use of icons, colors, and charts.

Topographical Maps: Fourth grade students will create topographical maps of the United States using Model Magic, which is a self-hardening nontoxic modeling compound.

Forest Elementary School:

Wixie: A subscription to Wixie will allow students to access creative publishing options on any web device.

Storyworks: Fourth grade students will have a subscription to Storyworks magazine which would help balance core literacy skills.

Scholastic News: Second grade students will benefit from a subscription to Scholastic news.

North Elementary School:

Architectural Boat Tour: Fifth grade students will go on a architectural boat tour as a culminating activity to their unit that focuses on art, architecture, and architects.

Project Pioneer: Fifth grade students will experience pioneer life through demonstrations and hands-on activities at the Grove.

Fifth Grade Reading Materials: National Geographic Ladders reading materials will be purchased for students.

Taking Technology To The Next Level: Purchase additional apps that will help Kindergarten students create stories.

Field Trip Experiences: Students will attend the Adler Planetarium, The Metropolis Theater and the Lizzardo Museum of Lapidary Art.

Comparing Communities: Students will visit the Naper settlement to learn about life and challenges back in the early years of our country.

Uke Can Do It: Purchase an additional 20 ukuleles to enhance the music program.

Kindergarten Mentor Texts Spanish/English: The Kindergarten team will purchase books, the same titles in Spanish and English, to improve reading and literacy in their classes.

Zoo Field Trip: Kindergarten students will attend a second field trip to the zoo or one of the museums.

Volo Auto Museum: Fourth grade students will study the American automobile and the impact of the auto industry on the economy, climate, and the growth of technologies.

Welcome To North: Any new student entering North school beginning in October will be given a welcome gift that will provide the new student with essential school items.

Orchard Place Elementary School:

Outdoor Education: Fifth grade students will attend a two-day educational program at the Ingleside YMCA.

Meet Osmo: Students will benefit from the use of Osmo, an interactive learning device that works with an iPad to create an interactive hands-on learning space.

Elephant And Piggie Are In A Play: First graders will see a play and then compare/contrast the play and the book.

Expanding Horizons, Building Bridges: Special needs students and one family member per student, will attend a children's theater production at De Paul.

Real or Fairy Tale: Second grade students will study the difference between folk tales and fairy tales. The culminating activity will be a field trip to a live performance of Cinderella.

Plainfield Elementary School:

Ukulele Mania: Ten ukuleles will be purchased to increase the number of ukuleles available to students in grades second through fifth.

Plainfield Future Problem Solvers: Students will participate in an internationally based program that promotes critical thinking, writing, reading, and developing a vision of the future.

Group Mentoring: Students that need additional guidance in achieving their optimal performance academically, behaviorally and socially, will be mentored for ten weeks during an after school club.

Reading Buddies: Purchase reading materials and storage containers for a project where third grade students work with volunteers from the community.

Happy Feet: Happy Feet is a walking/running club for third, fourth and fifth grade students that promotes healthy life habits.
